

TRINITY SUMMER CAMP – NUT AND FOOD ALLERGY STATEMENT

The purpose of this statement is to advise parents of children with nut and food allergies of the following information, which is stated with the intention of providing an environment, that is as safe as possible:

1. Trinity Summer Camp does NOT provide a “nut free” environment, nor do we restrict any food from being brought to camp by other campers.
2. Parents of children with nut or food allergies should pack a morning snack for them since Trinity Summer Camp will not provide one. Since the afternoon snack is always fruit flavored ice, they will be permitted to have one.
3. Children who have nut or food allergies will not be permitted to purchase items at the snack bar. Parents of these children should pack their entire lunch.
4. Please be sure your child understands that sharing food with another camper is not permitted and could be dangerous to them. We at Trinity also remind all campers of this rule but cannot be held responsible if your child chooses to accept food from another camper.
